

AREOLA PIGMENTATION | AFTER CARE

First 24 hours:

ONLY CLEAN WITH WATER & APPLY AFTER CARE PRODUCT.

EVERY 4 HOURS. NO SHOWER!

At night time after cleaning and applying your AC product, cover the treated area with plastic wrap, to prevent it from drying out.

After 24 hours:

Morning time: *Short showers are allowed.* Gently splash the area with cool water and very gently clean using a mild unscented soap and rinse thoroughly. Use very gentle pressure to clean the skin. Once the skin is clean and dry, apply your aftercare product to the treated area as needed until the scabs fall off on their own.

Mid-day time: With clean hands, apply your aftercare product.

Night time: Clean using a mild unscented soap. Gently splash the area with cool water and very gently clean with soap and rinse very thoroughly. Use very gentle pressure to clean skin. Once the skin is clean and dry, apply your aftercare product, to the treated area as needed until the scabs fall off on their own. Cover the treated area with plastic wrap, to prevent it from drying out.

AFTERCARE DONT'S:

- × Do not pick the scabs. Let them fall off by themselves or you risk scarring.
- × Do not apply any other products on the treated area.
- × Do not work out, swim, get in a hot tub or steam bath (avoid sweating and soaking scabs), for 15 days after the treatment.
